

Inspiring mission, inspired technology to dramatically accelerate critical therapies to citizens of the world.

Accumulus Synergy is transforming how information flows between industry and regulators. Instead of static document-based processes, think instant communication, real-time data exchange, and dynamic insights. We are paving the way to a global dossier in the cloud.

Welcome to a new era of regulatory connectivity.

The Accumulus Difference

TRANSFORMATIVE EFFICIENCY

Background:

The Accumulus platform facilitated the largest Post Approval Change Reliance project conducted to date, involving **37 national regulatory authorities** across 6 continents.

Result:

The global approval timeline decreased significantly from an average of **2.5 years** to under **6.5 months**, marking an efficiency improvement of nearly 80%.
