

INDUSTRY ASSOCIATION FORUM

MAKE AN IMPACT - HELP SHAPE THE FUTURE OF REGULATORY INFORMATION EXCHANGE

PURPOSE

The purpose of the **Industry Association Forum** is to capture global industry association insights on key topics related to intelligence and policy, such as:

- Global data standards
- Cloud-based data exchange platform to support submission of a single global dossier
- Collaborative ways of working to bring safe and effective medicines to patients with shorter global cycle times

The Forum will provide representatives an opportunity to be at the forefront of data and information exchange policy and to engage in dialogue around how to utilize innovative technology to advance regulatory interactions.

WHAT TO EXPECT

The Industry Association Forum is an opportunity to be at the forefront of data and information exchange policy. Join the forum so you can:

- Drive innovation
- Share your expertise
- Provide strategic feedback
- Propose agenda topics
- Engage in dialogue
- Attend quarterly virtual meetings

ABOUT ACCUMULUS

Accumulus Synergy® ("Accumulus") is a nonprofit technology organization with a mission to accelerate critical therapies to citizens of the world. To achieve our mission, we engage with national regulatory authorities (NRAs), life sciences organizations (LSOs), and other industry stakeholders within the regulatory ecosystem to help shape policy and raise awareness to positively impact public health. Our transformative platform enables collaboration and efficiency between LSOs and NRAs worldwide.
